## Assembly Instructions #3128W Teach 'n' Travel Cart

### Teach 'n' Travel Cart Set-up Instructions

Note: For first use, it is easier to set up cart while it is still in its shipping carton. Remove any packing materials (and optional shelf if included) prior to raising cart.

#### **To raise cart:**

1. While cart is upside down, locate and lift Axle A (longest axle) slightly.
2. Locate Red Dot sticker next to upright wheel.
3. While holding Axle A depress button next to Red Dot and lift Axle A till it locks.
4. Locate Axle B and lift it till it locks.
5. After raising and locking both axles, turn cart over so wheels are on the ground. (Shipping carton can now be lifted off cart.) Optional shelf may now be installed.

#### **To lower/collapse cart:**

1. To collapse wheels, remove optional shelf if included and flip cart over onto the lid.
2. Depress button near Axle B. Lower wheels and axle, then do same to Axle A.
