

# Wilson Divider Curtains

Bubble Structure

Wilson divider curtains are designed for exceptionally heavy use between courts to keep balls within playing areas. Ideal for use in air supported structures/bubbles, they are available in three grades and include heavy vinyl tape on all sides. Grommets are spaced 15" apart on top and sides. A wide range of replacement skirts makes it easy to choose the right product for your application.

## How to Install Divider Curtains

The standard court needs 120' of 10'- or 12'-high divider curtain, which can be divided into several sections (e.g., 40' and 80', 60' and 60', etc.). They can be supported by cable and turnbuckle, high-tension wire or a track system.

The bottom of the netting should not be anchored to the surface in any way but should hang 1/4" above the court surface or just touch the surface. Lead rope can be added as a weight to force the curtain down towards the floor, thus further preventing balls from going between courts.

Divider curtains can also be used outdoors, but because they should not be hung on fence posts, appropriate hanging structures must be provided. Proper installation is important, and the support structure must be capable of handling the high tension applied to the supporting cable.

Netting should be hung in two pieces that may be drawn to the ends of the court or to the center for court maintenance. The top of the netting should be strung 10' to 12' above the surface of the court. If the bottom of the divider curtain touches the floor, over time, abrasion will wear the bottom so a detachable lower skirt may be specified and replaced when worn.

284W

### 284W / Wilson Knotted Polyethylene

For maximum strength and high weather resistance. Netting is not coated; strength and weather resistance are built into fibers. 1-3/4" mesh. Strength per mesh 140 lbs. Bound on four sides with heavy-duty vinyl-coated nylon. Grommets spaced 15" apart on top and sides.

+ Dark Green, Black or White

#### Can also be ordered with:

284VW / Velcro®-Detachable Two-foot Bottom Netting with / without Lead Rope

286W / Lead Rope Bottom Hem

290W / One-foot Vinyl Bottom

290VW / Velcro®-Detachable One-foot Vinyl Bottom

 288W / One-foot Vinyl Bottom Weighted with Lead Rope

288VW / Velcro®-Detachable One-foot Vinyl Bottom with Lead Rope

Items preceded with a  indicate a donation to The Breast Cancer Research Foundation will be made with its purchase.

3144W

### 3144W / Wilson® Knotless Nylon

Combines value and performance with 420 knotless 1-3/4" nylon mesh. Bound on four sides with vinyl tape. Grommets spaced 15" apart on top and sides.

+ Dark Green or White.

#### Can also be ordered with:

3144VW / Velcro®-Detachable Two-foot Bottom Netting with / without Lead Rope

3145W / Lead Rope Bottom Hem

3146W / One-foot Vinyl Bottom

3146VW / Velcro®-Detachable One-foot Vinyl Bottom

3147W / One-foot Vinyl Bottom Weighted with Lead Rope

3147VW / Velcro®-Detachable One-foot Vinyl Bottom with Lead Rope

3140W

### 3140W / Wilson® Knotted Nylon

Enjoy the best in uninterrupted play. Made of heavy 1-3/4" knotted nylon, hemmed and grommeted. Durable brass grommets every 15" on top and sides.

+ Dark Green or Black
