

Wilson Surface Covers and Accessories

Tennis Court Covers

3540W / Polyethylene Tennis Court Cover

Made of durable, high-density polyethylene fabric. Constructed of woven tapes, coated on each side to a thickness of 12 mils, weight of 6 oz. per sq. yd.

- + Waterproof sealed seams and hemmed edges. Grommets for fastening are optional.
- + Covers are fabricated in 2 sections for proper installation.
- + Order by the square foot or by single, pre-cut 54' x 60' piece (typically, two 54' x 60' pieces are needed per court).
- + Silver gray. 20 sq. ft./lb.

3541W / Pre-Cut Tennis Court Cover

Same material as above but single 54' x 60' piece. Covers half a normal tennis court. 165 lbs.

NOTE: If used in winter to cover a court, it is absolutely necessary to secure all 4 sides by rimming the perimeter with cement blocks or heavy stones placed tightly next to each other, leaving no gaps to let the wind underneath. Otherwise, the wind will blow the cover off and tear it.

Field Covers

All field covers have waterproof sealed seams and hemmed edges. Grommets for fastening and handles are optional.

3506W / 18 oz. Vinyl-Coated Polyester Field Cover

Recommended for universities and professional facilities.

- + Highest durability due to a thick 14 oz. PVC coating on a 4 oz. polyester fabric.
- + Mildew resistant. Outdoor use only.

Vinyl-Laminated Nylon Covers

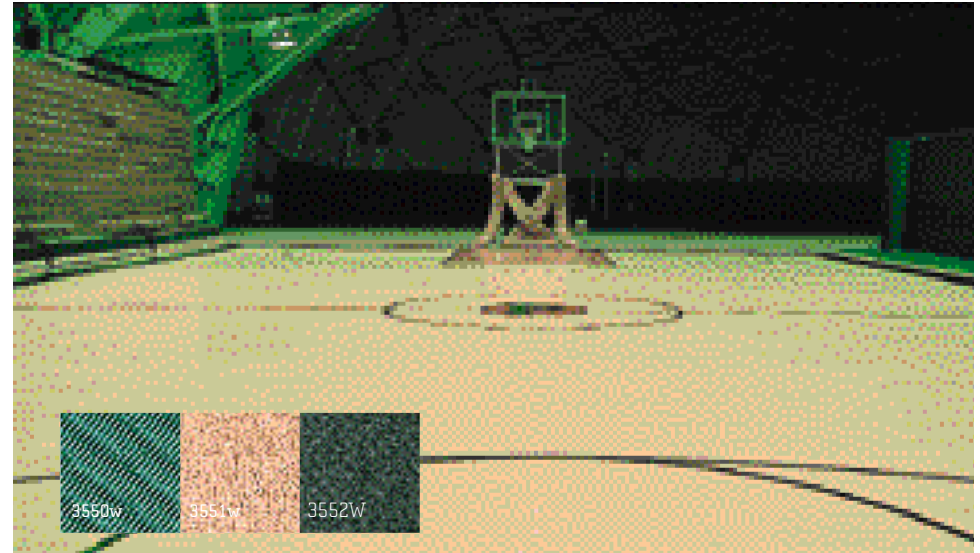

3503W / 16 oz. Cover

3505W / 22 oz. Cover

Our most popular grade, recommended for most facilities. Constructed of two thin vinyl films laminated onto each side of a light weight nylon fabric. They are less durable than the vinyl coated cover.

3500W / 6.5 oz. Woven Coated Polyethylene Cover

Our light weight cover is recommended for use at schools and public recreation facilities.

Gym Floor Covers

3550W / 22 oz.

3551W / 24 oz.

3552W / 27 oz.

- + Made from vinyl laminated on nylon available in three grades.
- + All materials are fire-retardant, non-absorbent, waterproof, mildew-resistant and durable to withstand years of repeated use.
- + Waterproof sealed seams and flat, nonraveling edges.
- + Handles are optional and placed every 10' along narrow edge.
- + Available in custom widths from 15'W up to 150'L. Runners available in 30" and 60" widths.
- + Gym cover roller cores of 8" diameter also available.

See Page 40 for Surfacing Products and Tools.

Surface Cover Accessories
