

# Soft Court Maintenance

**3454 / Court Tape Nailing System**

Easy to operate, heavy-duty pneumatic coil-type nailing machine reduces tennis court installation time by 70%.

- + As the machine is pushed along a preset boundary tape, nails are automatically set every 6 inches along the tape edge. Process is then repeated along other side of tape.
- + Adjustable dual chassis allows the nail gun to recoil and not affect the chassis alignment. Pivoting rear axle compensates for uneven court surfaces. Switch on padded handle allows for automatic or manual control. Requires air compressor with min 5 hp and 8 cfm. 60 lbs.

**3453 / 2-1/2" Stainless Steel Nails**

For 3454 Nailing System. Ring shank. Box of 3,600. 21 lbs.

**3452 / 2-1/2" Galvanized Nails**
